

## The European reference in questionnaire generation software

With Easyquizz® Pro, you can:

- Create multimedia questionnaires including sound, videos, picture and flash animation: pre-assessment, knowledge testing, training assessments, polls, satisfaction surveys, quality control.
- Publish your questionnaires on an internet server, a CD-Rom, or a training platform thanks to SCORM and AICC compatibility.
- Generate assessment reports automatically on a server and export them to a spreadsheet.

### Large range of customised questions

-  Drag-and-drop question  
Single Choice Question (SCQ)  
and Multiple Choice Question (MCQ)
